

PARKING DO'S AND DON'TS

Whether you're cruising in for the day or just dropping by, we've got a few easy-breezy guidelines to make sure parking stays smooth and stress-free. Park smart, follow the signs, and everyone gets to enjoy a hassle-free experience. Ready to roll? Let's dive into the dos and don'ts of our parking paradise!

-  **Park at Your Own Peril:** Your car, your responsibility! Park wisely, because it's all on you.
-  **Cars Only, Please:** Our parking spots are VIP-only for private passenger vehicles. No trucks or trailers, just your trusty ride!
-  **Stick to Your Spot:** Whether it's your car or one belonging to your crew—employees, suppliers, or guests—make sure everyone parks in the right place. Loading and unloading should happen in designated zones only!
-  **Play by the Rules, or No Parking Pass for You:** The Landlord has the final say on who gets parking access. If someone isn't following the rules, they might just find themselves without a spot!
-  **Follow the Signs:** Parking is a team sport! Stick to the signs and park only in the designated areas.
-  **Park Smart or Pay Up:** Illegally parked vehicles will be clamped faster than you can say "oops!"—and it'll cost you R500.00 to set them free.

-  **Your Car, Your Care:** Park your ride and keep an eye on it—you're the captain of your own vehicle! Cube Workspace won't be liable for any bumps, scrapes, or missing stuff. The risks are all yours when you park here.
-  **No Car Spa Treatments Here:** While we love a clean car, please save the maintenance magic for another spot. You can wash, wax, and shine your vehicle in the designated areas during business hours only.
-  **Rule Keepers Unite:** It's up to you to ensure your team—employees, agents, and guests—follows all the parking rules. Be a parking ambassador and keep everyone in line!
-  **Rule Updates Ahead:** Cube Workspace might tweak these rules or add new ones to keep everything running smoothly. Stay tuned for any updates to keep parking as awesome as ever!

Visitors Parking:

-  **Keep Your Eyes Peeled:** Visitors, your vehicle's safety is in your hands. Park at your own risk!
-  **Book It to Lock It:** Want to save a spot for your visitors? Head to Reception to book a bay. It's first come, first served, so snag your spot early!
-  **Visitor Vigilante:** You're the designated driver for your guests' vehicles. While they're parked here, it's your responsibility to keep an eye on their rides.
-  **Clamped for the Unapproved:** Park in a spot without a pass, and you might just get clamped! It'll cost R500 to free your ride, so park smart!
-  **Overnight No-No:** Storing your vehicle overnight? Not without a written thumbs-up from the Managing Director! Keep it short and sweet, or get the proper okay.
